Professional Summary

Full-Stack Developer with 4 years of experience building and supporting software solutions, including 3 years at Coco Tecnologías. Experienced in combining software development with AI-assisted workflows to solve practical business problems, streamline repetitive processes, improve operations, and support users.

Comfortable working directly with non-technical stakeholders, troubleshooting software issues, understanding business needs, and turning them into clear technical solutions. Seeking remote projects involving AI implementation, workflow automation, AI operations, and full-stack development.

Value I Bring to AI Projects

- **Workflow analysis** — Analyze repetitive and manual workflows to identify practical opportunities for automation.
 - **Practical implementation** — Help implement AI into useful, repeatable business processes.
 - **Solution improvement** — Troubleshoot and improve AI-assisted solutions and implementation workflows.
 - **Technical communication** — Bridge technical execution with clear communication for non-technical clients and teams.
-

Language: English - Advanced

Professional Experience

Coco Tecnologías — Software Developer | 3 years

- Developed and maintained software solutions as part of a full-stack development workflow.
- Worked directly with users and support tickets to understand software issues, explain product functionality, and resolve reported problems.
- Translated business and user needs into technical solutions.
- Debugged application issues, improved existing functionality, and collaborated on software improvements.
- Applied AI-assisted development workflows to accelerate problem solving, coding, debugging, documentation, and implementation tasks where appropriate.
- Supported both technical execution and user-facing problem resolution.

Carulla — Operations / Customer-Facing Experience | 1 year

- Strengthened communication, reliability, teamwork, and customer-facing experience in a professional operating environment.

Teleperformance — Customer Service Agent | 6 months

- Supported customers for the North American Amazon line.
 - Resolved issues involving shipments, damaged orders, returns, payment problems, and other customer requests.
 - Communicated clearly in a fast-paced service environment and handled issue resolution while maintaining customer experience standards.
-

Additional Relevant Experience

Virtual Assistant — Real Estate

- Managed social media, important appointments, chats, emails, and meetings for a real estate professional.
- Demonstrated operations, organization, communication, coordination, and remote-work skills.
